Air Agreements

Navigation

Once you select an airline from the list, the table will display the Air Contract details which groups contract information to make finding what you need easier.

There are five tabs at the top of each contract. When you select a specific airline, it will take you to the “General Information” tab which tells you if the airline is preferred, what ARCs are valid to ticket & also calls out any special information for the agreement in the “Must Read” section.

Itinerary Details

Selecting the Itinerary Details tab will take you to the page that has all the details as to what is allowed according to the contract. Items included here are booking class or fare basis code, routing allowed, originations allowed, code shares allowed & any other specific rules or exclusions that you need to be aware of as it pertains to your itinerary.

The scroll bar on the right will allow you to move down to see all the information. Each contract is detailed in the same manner so you will soon get used to where to go to find the specific information you may need.

Commission

The Commission tab will give you all the information you need regarding commissions, commission combinations and/or split commission instructions.

The commission table that appears can be streamlined to take you directly to the commission that is applicable for your specific itinerary. You can select the cabins to view thus limiting the amount of commission levels displayed.

Above the commission table the “Commission Table” section will call out anything important that you might need to know as you look for the correct commission amount.
