## 1. Air Booking Guide

ADX air itineraries are compared against 200+ contracts to build you an intuitive list of options with commissions. This air flow will take you from quoting to multi options to booking to ticketing, all in one platform. Booking ADX Air builds beautifully crafted comparisons and client itineraries as well as records commission automatically for reporting and finance payouts.

- All air itineraries are compared against our 200+ contracts to build you an intuitive list of options with commission
- Search Sabre and Amadeus inventory
- Net fares with mark-up opportunity available
- Air team support is a single click away
- Build side by side comparisons of up to 4 different itineraries
- Automatic invoicing for commission tracking
- Split credit card option when multiple tickets are sold

## 1.1. Mixed Cabin Search

Round trip and multi city options can be built as mixed cabin searches meaning you can have one cabin type on an outbound flight and a different cabin type for the return. To set the search to allow for a mixed cabin search, uncheck the SAME FOR ALL CITY PAIRS checkbox under the cabin selection and then select your cabin category for the subsequent flights.

Unselect the "Same for all city pairs" checkbox

Select your cabin types for next flights

The screenshot displays the 'NEW AIR SEARCH' interface in the ADAX system. The top navigation bar includes links for Partners, Clients, Resources, Bookings, and a search bar. Below this is a row of icons for ITINERARY BUILDER, AIR, HOTEL, ACTIVITY, INSURANCE, CRUISE, and INVOICE TOOL. The main search area is titled 'NEW AIR SEARCH' and features tabs for Round-trip, One-way, and Multi-city. The 'Multi-city' tab is selected, and the search type is set to '1 Adult'. The search parameters include 'FROM' and 'TO' fields, a 'DEPART' date field, and a 'TIME' field with 'Anytime' selected. The 'CABIN' dropdown is set to 'Economy', and the 'Same for all city pairs' checkbox is unchecked. The 'ROUTE VIA' field is empty. The search results are displayed in a table with columns for 'FROM', 'TO', 'DEPART', 'TIME', 'CABIN', and 'ROUTE VIA'. The first segment is highlighted in green. The second and third segments are also visible, with the same cabin type selected. The bottom of the form includes fields for 'AIRLINES AND ALLIANCES', 'FARE OPTIONS', 'STOPS', 'FILTER', and 'INVENTORY SOURCE (SDE)'. The 'QUOTE OWNER' is set to 'Anna Rulej' and the 'CURRENCY' is 'USD'. The 'Search' button is highlighted in blue.

## 1.2. Restricted to class search

Build a true class air search by restricting the category on the upfront search. This will ONLY show you results where all the flights are available in the class selected.

Check the “Limit to selected cabin” checkbox

The screenshot displays the 'NEW AIR SEARCH' form in the ADX+ system. The interface includes a top navigation bar with links for Partners, Clients, Resources, Bookings, and a user profile for Anna Kulej. Below this is a row of service category buttons: ITINERARY BUILDER, AIR (highlighted in green), HOTEL, ACTIVITY, INSURANCE, CRUISE, and INVOICE TOOL. The main search form is titled 'NEW AIR SEARCH' and contains several sections:   
 - \*\*TRAVELERS\*\*: Set to '1 Adult'.   
 - \*\*SEARCH TYPE\*\*: Options for Round-trip, One-way, and Multi-city.   
 - \*\*FROM/TO\*\*: Fields for origin and destination, each with an 'Include Nearby Airports' checkbox.   
 - \*\*DEPART/RETURN\*\*: Date and time selection fields with 'Anytime' as the default.   
 - \*\*CABIN\*\*: A dropdown menu currently showing 'Economy'. A callout box from the text 'Check the “Limit to selected cabin” checkbox' points to a checkbox labeled 'Limit to selected cabin' which is checked. Another checkbox 'Same for all city pairs' is also visible.   
 - \*\*ROUTE VIA\*\*: Fields for specifying intermediate stops.   
 - \*\*AIRLINES AND ALLIANCES (Optional / Max 3)\*\*: A text input field and radio buttons for 'Include' and 'Exclude'.   
 - \*\*FARE OPTIONS\*\*: A dropdown menu set to 'Any'.   
 - \*\*STOPS\*\*: A dropdown menu set to 'Any'.   
 - \*\*FILTER\*\*: A dropdown menu set to 'No Filter Applied'.   
 - \*\*INVENTORY SOURCE (GDS)\*\*: A dropdown menu set to 'All'.   
 - \*\*QUOTE OWNER\*\*: A dropdown menu set to 'Anna Kulej'.   
 - \*\*CURRENCY\*\*: A dropdown menu set to 'USD'.   
 - \*\*Buttons\*\*: 'Save for Later', 'Search', and 'View Saved and Previous Searches'.
