1. Air Booking Guide

ADX air itineraries are compared against 200+ contracts to build you an intuitive list of options with commissions. This air flow will take you from quoting to multi options to booking to ticketing, all in one platform. Booking ADX Air builds beautifully crafted comparisons and client itineraries as well as records commission automatically for reporting and finance payouts.

- All air itineraries are compared against our 200+ contracts to build you an intuitive list of options with commission
- Search Sabre and Amadeus inventory
- Net fares with mark-up opportunity available
- Air team support is a single click away
- Build side by side comparisons of up to 4 different itineraries
- Automatic invoicing for commission tracking
- Split credit card option when multiple tickets are sold

1.1. Filtering Search Results

Get the most out of the search results by applying filters to narrow down the options. Filters are available through the airline price grid box as well as through the header columns. Any filters applied will be added to the filters section and the results will be reflected. To remove the added filter, press the x button next to the filter name and the results will update accordingly.

The screenshot shows the flight search results page with the following components:

- Flight Search Results Header:** Includes navigation links (ADK, Partners, Clients, Resources), a search bar with 'Bookings' dropdown, and a user profile 'Anna Kulej'.
- Search Parameters:**
 - TRAVELERS: 1 Adult
 - CURRENCY: USD
 - Buttons: Save for Later, Modify Search
- City Pairs:**
 - City Pair 1: Sun Nov 13, Los Angeles (LAX) to London (LHR), Economy, Route Via: —, Current
 - City Pair 2: Sat Nov 19, London (LHR) to Los Angeles (LAX), Economy, Route Via: —, Not Selected
- Annotations:**
 - Airline Price Grid:** Points to the table showing flight options by airline and stop count.
 - Filters Applied:** Points to the 'Filters' section showing 'Nonstop X' and 'Only Commissionable Flights X'.
 - Heading Filters:** Points to the header row of the flight results table.

1.1.1. Airline Price Grid

The airline price grids will allow you to quickly apply a filter by airline, price point or number of stops. Only 1 filter can be applied at a time using the airline price grid. Click on the item you want to filter by, the filter section will show that filter as applied, and you will see the results below reflecting that filter.

Click on filter to apply

The screenshot shows the ADX interface for searching flights. At the top, there are navigation tabs: ADX, Partners, Clients, Resources, and a search bar with 'Bookings' selected and a search icon. Below the navigation, there are options to 'Choose City Pair 1' and 'Select Flexible Dates Within ±3 Days'. The main section is a grid of airline options and stop counts. The 'NONSTOP' filter is selected, and the results below show only nonstop flights.

1.1.3. Header Filters

Use the v on each column in the header to apply a filter on price, airline, departure/arrival times, from/to, flight duration, stops, advisories, contract type and GDS. Press the v button in the column and apply the desired filter. Click on the filter again to close the section and review the filtered results.
