

THE QUANTUM ADVANTAGE

As one of the industry's first true hybrid models, Quantum Jets, an Argus Resistered Brokerage has redefined the private jet travel landscape by not only operating our own fleet aircraft but also establishing ourselves as one of the world's leading charter brokerages. This unique model gives us a competitive advantage that very few can match. Whether chartering on our managed fleet or with one of our trusted aircraft managers, we have honed our operational expertise to ensure every aspect of your journey is nothing short of seamless. We pride ourselves on our attention to detail and commitment to making your travel plans a stress-free reality.

SERVICES

On Demand Charter Service- From one-ways to world tours, Quantum Jets can fulfill all of your charter needs. By eliminating security lines and commercial boarding times, you spend more quality time at your destination.

Sales and Acquisitions- With a vast network in the aviation community, Quantum Jets can assist you with the sale of your aircraft, or help you find the perfect aircraft to fulfill your requisites.

Concierge Services-From ground transportation and lodging to ultra high end catering and VIP requests, every aspect of your trip is serviced with just one call or email all under one roof.

SECURITY

Fixated on the Industry's Most Stringent Safety Standards- Quantum Jets partners exclusively with reputable operators that meet the highest safety guidelines set in place by ARG/US and Wyvern. Our vetted network of vendors work diligently to ensure that they exceed FAA requirements. All pilots receive extensive training at the most highly regarded flight training facilities. These standards ensure that our clients fly with teams that value their safety as much as we do.

Insured for Your Protection- We require that aircraft, both our fleet and Quantum Jets approved operators, are reliably insured above industry averages, always keeping our clients best interest in mind.

Accurate Forecast- Flight plans are run a minimum of two hours prior to departure to account for accurate weather depictions.

Preflight Checklist- All aircraft are run through a series of safety checks and a vigorous mechanical inspection prior to take off.
