UK Entry and Transit Requirements

Effective January 8, 2025, the United Kingdom required an Electronic Travel Authorization (UK ETA) for all U.S. and Canadian passport holders entering the UK. Applications can be completed at [this link](#). Processing may take up to 3 days. UK ETAs will be valid for two years from date of issuance.

Note: The UK has temporarily relaxed visa rules for transit passengers at Heathrow Airport. Those who remain airside while changing planes do not need an ETA to pass through the airport; however, if you need to go through UK border control during your transit, you may still require a visa depending on your nationality.

ETIAS – Requirements for travel to Europe

ETIAS is currently not in operation and will not start in the first half of 2025. No action is required from travelers at this point. The European Union will inform about the start of ETIAS several months prior to its launch.

Official Website for Updates is located [here](#).
